## SKILLS

---

- Scouting Experience
  - Recruiting Experience
  - Experience in editing and cutting up film
  - Works well under pressure
  - Highly organized
  - Detail oriented
- 

---

## WORK EXPERIENCE

---

### FOOTBALL VIDEO SCOUTING INTERN – SPORTS INFO SOLUTIONS

March 2021 - Current

I currently work as a Football Video Scout for Sports Info Solutions. In this role I've learned how to watch the game at an extremely detailed level. I also got the chance to contribute to their Football Rookie Handbook, in which I scouted players and wrote reports for them.

### VIDEO ASSISTANT – MICHIGAN FOOTBALL

March 2019 – December 2020

I worked as a video intern for the football program during my time as an Undergraduate. In this role, I got experience shooting and editing practice/game footage as well as organizing the film in our online database.

### PLAYER PERSONNEL INTERN – RECRUITING ANALYTICS

February 2020 – June 2020

In this role, I got the chance to help build a player comparison profile for several different levels of football success. Part of their platform is a recruiting database where they analyze current recruits and compare them to former college starters, All-Conference players, All-Americans, and NFL players, which is what I helped create the player templates for.

### FOOTBALL SCOUTING INTERN – ELITE FOOTBALL NETWORK

May 2019 – August 2019

Through Elite Football Network, I helped organize and build recruiting databases in various states. I also constructed an analytics project focused on the number of College/NFL players that come from certain states (Louisiana, Mississippi, Ohio, Georgia, New Jersey).
